

**I N S I D E:**

**20-20 PLAN SPURS NEW NTIA CONCERN**

New FCC Commissioner **Reed Hundt** isn't the only one who wants to review the radio ownership rules. NTIA Dir. **Larry Irving** intends to voice his agency's concerns about the impact of the coming 20AM-20FM increase on small entrepreneurs and minority owners.

**Hundt To Study Ownership Policies**

**FCC chief wants informal market concentration and antitrust examination to see if Commission is moving 'in the right direction'**

New FCC Chairman **Reed Hundt** has asked top agency staffers to conduct a market concentration and antitrust study to determine whether the Commission's radio ownership policies are "headed in the right direction."

Hundt told R&R Tuesday (12/14) he has asked General Counsel **William Kennard** and Mass Media Bureau Chief **Roy Stewart** to provide him with some clear guidance on the ownership issue "in the next couple weeks."

**Nothing Formal**

According to Hundt, Kennard and Stewart are charged with answering these questions:

**ShIPLEY To Head New Decca Label**

MCA/Nashville Sr. VP/National Promotion **Shelia Shipley** has been named Sr. VP/GM for MCA's new Country offshoot, **Decca**, which is set to begin operations January 3 (R&R 12/3).

Shipley

MCA/Nashville Chairman **Bruce Hinton** commented, "Shelia is one of the truly outstanding record executives in the business, and her wealth of experience and proven skills make her the perfect person to lead this new label. Shelia has contributed greatly to MCA's success during an exciting period in its growth. Her efforts have been key in the development of many artists, including **Mark Chesnutt**, **Mark Collie**, **Vince Gill**, **McBride & The Ride**, **Marty Stuart**, **Wynonna**, and **Trisha Yearwood**. I'm confident that under Shelia's direction the new Decca label will continue MCA's track record of success."

SHIPLEY/See Page 15

"What ownership restrictions advance competition and access?" and "On a general basis, is the Commission headed in the right direction?"

"We're not launching an inquiry — that's a formal act,"

will work aggressively to build a record to support some form of regulation of such material. A recent federal appeals court decision that struck down an FCC plan limiting indecency to a midnight-6am "safe harbor" makes it clear, he said, that regulation of indecent programming is clearly constitutional.

Hundt

**It's our job as lawyers to get [indecent regulation] right. We will undertake that job with zeal — and I hope creativity — and we're going to be winning these [court challenges] in the future.**  
—Reed Hundt

Hundt stressed, noting that the study is designed primarily to help him get up to speed on the ownership rules issue. He declined comment on whether the study might prompt the agency to reopen the ownership issue and perhaps seek further relaxation of the rules, which currently allow licensees to own up to 18 AM and 18 FM stations (increasing to 20 AMs/20 FM next year).

"That's farther than I can go right now," said Hundt. "I don't have that kind of foresight."

**Regulating Indecency**

On the topic of broadcast indecency, Hundt said the agency

will work aggressively to build a record to support some form of regulation of such material. A recent federal appeals court decision that struck down an FCC plan limiting indecency to a midnight-6am "safe harbor" makes it clear, he said, that regulation of indecent programming is clearly constitutional.

**Just Settling In**

Hundt, who took the reins at the Commission earlier this month, said he has not had time to study such radio-related issues as the NAB-supported FM allocation freeze, the merits of satellite vs. terrestrial DAB, or the question of whether there is anything else the agency can — or should — do to support the AM band.

Hundt foresees a "bright

HUNDT/See Page 15

**Radio Industry On 'A' List At PaineWebber Conference**

**Karmazin: New technology no threat to radio**

Radio emerged as a major player at the **PaineWebber** Media Conference in New York last week (12/6-10), as radio companies drew rapt attention from the stock analysts and investment managers in attendance.

**Radio 'Clear Winner'**

Making his first appearance at the annual conference on media stocks, **Infinity Broadcasting**

President/CEO **Mel Karmazin** noted that radio — unlike other media industries, like TV and newspapers — isn't facing a major threat from new technologies targeting its core audience. While other advertising vehicles grapple for position in a changing media mix, Karmazin told the conference, "The fact that there's nothing going on around us makes radio a clear winner."

While Infinity officials were restricted in their comments by SEC regulations (owing to the company's recent \$140 million stock sale by **Lehman Brothers** and other original investors), CFO **Farid Suleman** noted that two analysts had projected 7% growth for Infinity (without any additional acquisitions) through 1995. He also said Infinity has averaged 11% annual growth in recent years.

Karmazin said Infinity expects to realize future growth on several fronts: cash flow growth at existing stations, revenue and

PAINWEBBER/See Page 15

**Clinton Praises Radio Curbs On Violent Lyrics**

President **Bill Clinton** applauded radio stations that have banned airplay of songs with violent lyrics during his weekly radio address Saturday (12/11). While calling on Congress to pass a tough anti-crime bill, the president singled out three station owners for specific praise.

"In recent weeks, I've spoken to leaders from the religious community and the entertainment community about the obligations we all share to fight violence with values. Last week I was proud to hear that **Inner City Broadcasting**, which owns

CLINTON/See Page 15

**Arbitron's New Priority: Response Rates**

**Cash giveaways considered as way of boosting diary returns**

**B**ALTIMORE — Now that Arbitron is sewing up the issue of larger sample sizes, the company's next priority is to boost the number of people who agree to fill out a diary and return it. Among the ideas: Offer diary-keepers a chance to win as much as \$1500 if they return their diaries complete and on time.

Speaking at Arbitron's annual programming consultant and group programmer fly-in, Arbitron's **Marilou Legge** declared, "We've driven a stake in the ground to improve response rates in 1994."

Arbitron's market report, version two. Missing: Station formats.

Legge admitted that response rates — the percentage of individuals who return an in-tab diary out of the total number of persons targeted for diary placement — have declined three to four points over the past few years. She also said Arbitron is trying just about anything — from on-air survey announcements to holograms on the front of diaries — to remind diarykeepers of the survey's importance.

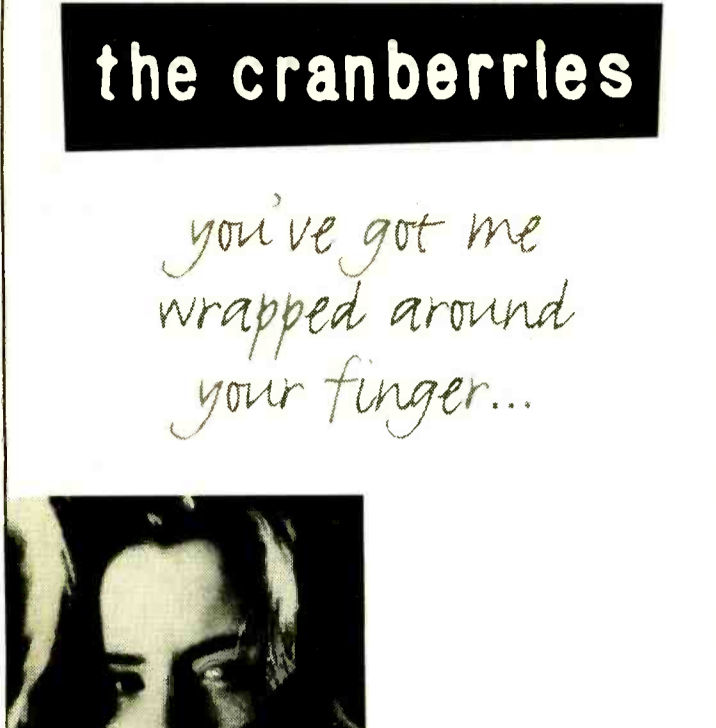

**Placement Problems**

The response rate problem has become a source of frustration.
