Hi , it's me again. We are in Minneapolis, and badly hung over I'm afraid!! We played in Chicago last night and it was a great gig so everyone was in flying form. As today is Dolores' birthday we threw a surprise party after the show which continued onto the bus. We have about twenty or so people working with us on the tour and they are all really nice so it's always good to have a night like that to help everyone relax after working so hard for the past few weeks. I'm afraid I have to go back to bed now for a snooze so I'll talk to you again in a few days. Take care, Fergal.

Hi there, how's it going?
We are back in the USA again. We kicked off our new leg of the "Loud and Clear" tour in Tampa, Florida two days ago. It was great to play again after our eight week break, and we weren't too rusty (I think!?).

We have changed our set list quite a bit since the last tour. Dolores asked us if we would be up for trying "God Be With You Ireland", the song she wrote for a movie (The Devil's Own). It sounds very powerful so I think it will be a permanent resident in the set for a while.

We did a video for "Just My Imagination" in Dublin just before we came over here it will be released (only in America) in a couple of weeks. I'll see if I can put it up here for you.

O.K.,, that's about it , I'll talk to you soon,
All the best,

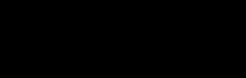

Fergal.

Hi there,
Well I just got back from Italy where I spent three weeks relaxing with my wife. Dolores was in Canada for a few weeks with her husband and son; Noel and his wife went to the Caribbean and Mike and his wife were in Portugal. Everyone had a great time and the "batteries are recharged".
Our tour manager is getting married in a few days so that should be a good day out.
We have decided to release "Just My Imagination" in the U.S.A., so we will be doing the video for that at the end of this month, and then we go to Florida to rehearse for a week before we begin our U.S. tour. That's about it I'm afraid (I'm so boring aren't I ?) Talk to you soon,
All the best,

Fergal.

Hi there,
We are still in Los Angeles doing various bits and pieces.We were all out at dinner the other night and we were talking about the past month or so and everyone agreed that they were so surprised by the reaction to "Bury The Hatchet". We would like to thank you all so much for your support, we really appreciate it. This tour that we've just finished is the most fun we have had in years, so it's a good indication of what's to come for the next leg.
There are lot's of poeple asking what countries we are coming to over the next year, all I can promise is that we are going to try to get to as many countries as possible,but we are wary of getting worn out again so we are taking it step by step. We will keep you posted in the touring section of this page.
I've been speaking to lot's of people after concerts that we've done, and everyone has been really cool and supportive of this web site, so THANK YOU!!!!!! That's about it for now I'm going to try to get my hands on some interviews we've done and post them up here so, that might answer any questions you might have. If you are wondering where the message board has gone, well...we tried it, and unfortunately it was being bombarded with unnecessary foul language and such like. We don't want anybody to get insulted when visiting anything associated with this site. I hope you will understand.

Talk to you soon,

Fergal.
