

October 16th 2001

CONTINUED

Q. When does it start, from where, and for how long exactly will your new world tour last?

A. We haven't arranged our schedule yet but we are due to start touring in March 2002. We would like to begin somewhere warm as it makes tour-life easier, everyone is in good spirits and we get a chance to see a city/town on our day off.

Q. Did you participate in the production of the new lp?

A. We (all) always participate in the production of a record. With Stephen it's great because he understands us so well and there is a mutual trust. He manages to get the best out of everyone and is very much into capturing an atmosphere.

Q. Do you go clubbing?

A. When we are on tour some of us will go out if we have a day off the next day. We have lots of friends working with us on tour so there is never a shortage of people to go out with!! Not really when we are at home, most of the clubs here (Limerick) are crap, it's more of a pub kind of town.

Q. Just seen you folks performing on CD:UK, and noticed the hobo you've got on bass. What the hell has Noel done to himself? P.S - Get yourselves to York Barbican!

A. That was Deci, who is Mike's bass technician! Mike's wife was due their baby and so Mike was by her side waiting with baited breath. So, we asked Deci could he do it. We look out for each otha'.
