Q. Could you explain to me the meaning of the video for Analyse? I find it very hard to understand.

A. The video for "Analyse" is the story of a man who travels the world looking for happiness. Eventually he comes back to where he began and realises it's not such a bad place after all.

Q. The Cranberries visited Mexico. How did you like it?

A. We visited Mexico a few times and loved it every time. I would love to visit again for a holiday.

Q. Hello! My question is; does the possibility exist that some day you come to the Canary Islands (Spain)? Please respond to me as I need to know!

A. You never, never know. If not we will be close to there.

Q. Do you like the new album by New Order? They were one of your music influences, right?

A. I just bought their new album a few days ago so I've only listened to it twice, but I like what I hear so far. It's great that they are still together after all these years.
