Q. What do you think about the state of music today? Poor things with some exceptions, like you.

A. It's getting better but you have to search a little bit more nowadays. It's great to hear "Coldplay, Travis, Beck, The Strokes, Starsailor etc. being played on the radio. They are "real" bands that write their own music, and are individuals, unlike the pop sh**, where everyone tries to sound alike.

Q. On the new album "Wake Up And Smell The Coffee" there is an absence of political matters. How's that? You used to

write about political matters ?

A. If a subject moves Dolores enough she will write about it, but she (like the rest of us) does not like to repeat herself.

Q. I'm from Toronto and was wondering if you could give me any information about the Intimate and Interactive you're doing at MuchMoreMusic on October 22nd. What songs are you playing? Are you letting fans come to see it? How do we get tickets?

I personally can't wait to see it!! I've seen you guys twice now and would love to hear your brilliant music in such an intimate setting. Also, I thought I'd let you know (if you didn't already)that the music magazine Blender by the makers of Maxim reviewed "WUASTC" and gave it 4 out of 5 stars!!!

A. Unfortunately we cannot do this now. Which is a big piss-off!!

Q. When did you start to record the new cd?

A. We began recording in Aug-Sept. of 2000, for four weeks and then we did three more weeks in April of this year.
